LEGISLATIVE.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 29th January 1862, and was referred to a Select Committee, who will make a report thereon after the 1st of May next:—

A Bill for securing certain grants of immovable property made by the State.

WHEREAS it is expedient and proper that grants of immovable property made for services rendered to the State, or for the support of any Title, Office, or Dignity conferred by the State, should be applied to the purpose for which the grant shall have been made, and that the property so granted should not be liable to be diverted from such purpose; It is enacted as follows:—

I. Whenever any grant of immovable property shall be made as above in Council may declare State Grants to be held on certain conditions. or to accompany or support any Title, Office, or Dignity conferred by the State, it shall be lawful for the Governor-General of India in Council to declare, first, that no assignment, agreement, sale, security, or alienation of any kind of or in respect of such property or of any future interest therein shall be made by the grantee or by any person to whom such property shall descend under the limitations of such grant (save and except leases for any period not exceeding seven years or for any further period terminable with the life of the lessor), and that all such assignments, agreements, sales, securities, and alienations, save and except such leases as afore-said, shall be null and void; secondly, that the property so granted shall be exempt from seizure, attachment, or sequestration by process of any Court of Civil Judicature, and from sale under any process in execution of any decree or order of any such Court; and, thirdly, in what manner

and subject to what limitations the property so granted shall, after the death of the grantee, descend in his family, namely, whether according to the ordinary law of inheritance applicable to the grantee or to the rule of primogeniture or otherwise; or to make any one or more of such declarations. Any such declaration shall be valid and effectual, and the property in respect of which it is made shall thereupon be held and enjoyed, subject to such declaration and in accordance with the terms thereof.

II. It shall be lawful for the Governor-General of India in Council, with the consent of the proprietors of any immovable property which shall have been granted to any person before the passing of this Act for service rendered to the State, or to support any Title, Office, or Dignity conferred by the State, and which shall continue the property of the grantee, or of any descendant of the grantee, to whom the property shall have descended under the limitations of the grant, to make any one or more of such declarations as aforesaid in respect of such property, and the reason such declaration shall, from the date thereof, have the same force and effect in respect of the property to which it applies as a declaration made under the last preceding Section.

III. No such declaration as is provided for in the last preceding Section of this Act shall apply to, or affect or release, any assignment, agreement, sale, security, or lien, or any right, title, or interest made, created, or acquired, in respect of any property to which such declaration relates, or any process of any Court of Civil Judicature issued in respect thereto, before the making of such declaration, or the claim of any creditor in respect of any debt personally incurred by the grantee subsequently to the acquisition of the grant, or by any descendant of the grantee to whom the property shall have descended under the limitations of the grant if such debt shall have been incurred before the passing of this Act.

IV. Whenever any creditor or other person shall require execution in respect of any claim or right not barred by declaration under this Act, by the sale of any property in respect of which any such declaration as aforesaid shall have been made, if it shall appear that satisfaction of the claim can be made within a reasonable period otherwise than by a sale of the property, the Court from which such execution is required shall make provision for the satisfaction of the claim in such manner as shall best, instead of proceeding to the sale of the property.

V. Any declaration made under this Act shall be registered in the Office of the Collector and in the Office of the Principal Register of Deeds of the District in which the property is situate in books to be kept for the purpose by such Collector and principal Register of Deeds, and shall be published in the Official Gazette.

THE following Bill was introduced into the Council of the Governor General of India, for the purpose of making Laws and Regulations, on the 29th January 1862, and was referred to a Select Committee, who will make a report thereon after the 1st of May next:—

A Bill to revive and continue in force for a further period Act XXXIII of 1857 (to make further provision relating to Foreigners.)

WHEREAS it was enacted by Act XXVIII of 1859 that Act XXXIII of 1857 (to make further provision relating to Foreigners) should continue in force for two years from the 5th day of December 1859; and whereas it is expedient to revive and continue the said Act for a further period; it is enacted as follows:—

The said Act XXXIII of 1857 shall continue in force for the period of two years from the 5th day of December 1861, and shall be deemed and taken to have had effect as if this Act had actually passed and received the assent of the Governor-General before the expiration of the said Act XXXIII of 1857, as continued in force by the said Act XXVIII of 1859.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill, as its title imports, is to continue in force for a further period the Act of 1857, which was passed to enable the Government to prevent the subjects of Foreign States from residing or sojourning in India, or from passing through or travelling in the same, without the consent of the Government.

The original Act expired on the 5th December 1859, and was renewed for two years by the Act No. XXVIII. of that year. It expired again on the 5th December 1861, and it is now thought by the Governor-General in Council expedient to renew it for a like period of two years, that is, to the 5th December 1863.

In addition to the general reasons which led to the passing of the Act of 1857, and which still to

some extent prevail, a special reason for continuing it in force is afforded by the recent Concordat between the Pope and Portugal, under which it is probable that the subjects of Foreign European nations may resort to India in greater numbers, and in positions of greater influence, than heretofore.

No objection has been made to the Act of 1857 as it stands, and it is therefore not proposed to alter any of its provisions, but simply to prolong the time of its operation to the end of next year.

X. All Silver Coin of the weight and standard specified in the said Acts XVII of 1835, and XXI of 1838, issued since the passing of those Acts respectively and before the day of and declared by those Acts respectively to be a legal tender, and all Copper Coins of the weight specified in the said

Acts XXI of 1835, XXII of 1844, and XVII of 1855 issued since the passing of those Acts respectively and before the day of and declared by those Acts respectively to be a legal tender, shall continue to be a legal tender for the amounts thereof respectively, subject to the same conditions and provisions as under those Acts respectively, anything in this Act contained notwithstanding.

XI. All Acts and Laws in force in British India at the time of the passing of this Act respecting the Queen's Coin, or the Silver or Copper Coin current in British India, and not repugnant to the provisions of this Act, shall be, and continue in full force and effect, and shall be applied to the Silver and Copper Coin to be coined in pursuance of this Act.

XII. The words "British India" in this Act denote the territories which are or may become vested in Her Majesty by the Statute 21 and 22 Vic., c. 106, "entitled ~~the~~ Act for the better Government of India."

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to legalize the Coinage at and issue from the Mints of the new Silver and Copper Coins which the Government proposes to issue, and the dies of which have been prepared in England.

These Coins are of the same denomination, standard, and weight as those of the Coin already in use. The only change proposed to be made in the Coin which requires for its sanction an alteration in the law, consists in the omission of the words "East India Company," and of the designation of the Coin in Persian, which, under the present law, must be impressed on the reverse of the Coin. In lieu thereof the new Coin will bear on its obverse the name and title as well as the likeness of the Queen, and on the reverse the designation of the Coin in English. There are other changes in the devices and ornaments on the Coin, but this is the only one calling for alteration of the law, as the Governor General in Council in his executive capacity is empowered by the Act above referred to, to prescribe such other embellishments for the Silver Coinage as he may think fit.

The present Bill provides that the Coin shall bear the likeness of Her Majesty, and the inscription "Victoria Queen," until the Governor General in Council shall otherwise direct, and empowers the Governor General in Council from time to time to vary the devices and inscriptions.

The proposed change in the Copper Coinage, which also mainly consists in the substitution of the name of the Queen for that of the East India Company, does not of itself require any change in the law. For power is given by Act XVII of 1835, Section X, Act XXI of 1835, and Act XXII of 1844 to the Governor General in Council by Order in Council to prescribe the devices and inscriptions for the Copper Coin.

But as the provisions for the Copper Coinage are scattered through several Acts* it has seemed desirable (except as to such of them as apply to the Copper Coin in the Straits Settlement, which stand on a different footing from the rest of India in that respect†) to repeal these Acts, and consolidate their provisions in the present Bill

No. 212.

GENERAL.

Port William, the 31st January 1862.

RESOLUTION.—The Governor General in Council has long felt the necessity for establishing, in the Burmese Provinces of British India, a central Administration, vested with ample power, subject to the general authority of the Government of India, to direct the affairs of those Provinces on a generally uniform system; to control the public expenditure in all Departments; to exercise a close and watchful supervision over the proceedings of the Local Officers of every class, and to devise such measures as may be best calculated to promote the material welfare and moral advancement of the people.

Hitherto these Provinces have been administered separately by three Commissioners independent of each other and subject to no local head. Two of them (Pegu and Tenasserim) are now in direct subordination to the Government of India, while the third (Arracan) formed, till recently, a portion of the Lieutenant-Governorship of Bengal.

They are all Non-Regulation Provinces. Their revenue system is in principle essentially the same. It is founded on the system which prevailed under the Burmese Government, and the modifications adopted in each Province, from time to time since it came under British Rule, are due less to any variety in the conditions of the three Provinces than to the differing views of the Authorities by whom they have been successively administered, subject to no general and comprehensive review by one common authority. Almost the whole population, except at the principal Seaport Towns, either are Burmese, or belong to some other branch of the Indo-Chinese family, having no affinity with the inhabitants of Bengal. They have many characteristics in common, are accustomed to intercourse with each other, and together form a group of races sufficiently homogeneous to mark the propriety of combining them under one rule.

The principal Sea-ports are already connected by an established periodical steam communication. All parts of the Coast, from one to another, are easily accessible in decked Vessels at all seasons of the year, and in open Boats and Canoes during a great part of it. Akyab, Prome, and Rangoon are joined by the Electric Telegraph wire, which will shortly be extended to Moulmein, and although the roads from one Province to another, especially that between Arracan and Pegu,

are at present difficult and tedious, yet communication by land is at all times practicable, and may be improved at a moderate cost. From all other parts of the British Indian Empire these Provinces are, from their geographical position, quite distinct, and, practically, can only be approached by Sea, the attempt to connect Akyab with Chittagong by a road having been made, and after great expense abandoned.

The authority vested in the Commissioners of the three Provinces has been too limited to enable them to deal freely with any measure of importance, and indeed with many details, without reference to the Government either of India or of Bengal, and the control exercised by those Governments over such distant possessions has been at times neither prompt nor effective; while projected measures of improvement have been sometimes delayed or rejected, and sometimes too hastily adopted, for want of the intervention of a Local Officer of high position and authority capable of weighing conflicting statements and opinions, and of presenting such measures, after full discussion with the Local Officers in each Province, in a form in which their merits might be thoroughly comprehended and a confident opinion formed on them by the Government. From the same cause many such measures, though adopted and found successful in one Province, have not been extended to the others.

Some months ago Lieutenant-Colonel Bruce and Mr. Temple, who were deputed to enquire into the condition of Pegu and the adjoining Provinces, and, in consultation with the Commissioners, to devise the means of introducing a better and more economical system of administration, submitted their views on the subject in the Reports which are now before the Governor General in Council. Their chief recommendations were that a Chief Commissioner should be set over the three Provinces, aided by a Secretary and a suitable Establishment; that there should be three Commissioners as at present, one in Pegu, another in the Tenasserim and Martaban Provinces, and a third in Arracan; that a Judicial Commissioner (a Barrister) should be appointed not only to hear appeals from the Divisional Commissioners and to superintend the Judicial Administration of Justice, but to preside as Judge in Local Civil Courts at the Sea-port Towns for the trial of commercial and other cases in which Europeans are concerned, and that

the salaries of the Deputy and Assistant Commissioners should be re-arranged, so as to provide more effectually for the promotion of those classes of Officers and to assimilate their position to that of Officers of the same class in other parts of India.

With these recommendations were joined others for the re-organization of the Police, the appointment of an Inspector of Jails, and the reduction of Civil, Military, and Marine Establishments. These are subjects for separate consideration, and some of them have been already disposed of. The savings effected in Marine and Civil Establishments alone amount to more than seven lakhs of Rupees a year, and the reduction in Military charges is much greater.

The Governor General in Council, on a full consideration of the Reports submitted by Lieutenant-Colonel Bruce and Mr. Temple, and of the correspondence which has passed with the Secretary of State for India and with the Local Authorities regarding the establishment, at Moulmein and Rangoon, of Courts for the better trial of suits in which the Mercantile community are interested, and having in view the formation of a system of administration best adapted to the circumstances and wants of Her Majesty's possessions in Burmah, is pleased to resolve as follows:—

That the three Provinces now known as the Arracan Division, the Province of Pegu, and the Tenasserim and Martaban Provinces, shall be united under one Chief Civil Officer to be styled the Chief Commissioner of British Burmah. This Officer, whose Head-Quarters will be ordinarily at Rangoon, will exercise powers similar to those now vested in the Chief Commissioner of Oudh, and will be in charge, as the Agent of the Governor-General, of the foreign relations of the British Government with the Court of Ava and other neighbouring States on the Eastern Frontier. He will also exercise the powers of Judicial Commissioner for the general superintendence of the administration of justice and for hearing appeals from the Divisional Commissioners. His salary will be Rupees 50,000 a year, including all travelling expenses; and he will have a

* *i. e.* 5 Rupees a day when absent on duty from the Head-Quarters of the Chief Commissioner of Rangoon. If absent at Sea with the Chief Commissioner on duty, the Secretary will submit a Contingent Bill for actual expenses and will draw no fixed travelling allowances while on board-ship.

Secretary on a salary of Rupees 9,600 a year, with an allowance for travelling expenses* and with an Establishment not exceeding in

respect to cost, that now entertained for the Commissioner of Pegu. The Chief Commissioner will submit an early report on the strength and expense of the Establishment actually required.

That the Province of British Burmah shall comprise three Divisions, each under a separate Commissioner, to be styled the Pegu, Tenasserim, and Arracan Divisions. The limits of these Divisions will at first correspond with those of the existing Commissionerships, but may be altered hereafter. Each Commissioner will receive a salary of Rupees 30,000 a year, including all travelling expenses. The Establishments of the Commissioners of the Tenasserim and Arracan Divisions will be the same as those now attached to the Commissioners of the Tenasserim and Martaban Provinces and of Arracan respectively. The Commissioner of Pegu will be authorized to entertain an Office Establishment at a cost not exceeding Rupees 1,000 a month, the exact strength and cost thereof to be fixed by the Chief Commissioner, subject to the sanction of the Government of India.

That, in place of the present Deputy and Assistant Commissioners, there shall be appointed for the whole Province of British Burmah—

	Rs.
2 Deputy Commissioners of the 1st Class, at 1,500	... 36,000
3 Deputy Commissioners of the 2nd Class, at 1,200	... 43,200
5 Deputy Commissioners of the 3rd Class, at 1,000	... 60,000
*5 Deputy Commissioners of the 4th Class, at 800	... 48,000
5 Assistant Commissioners of the 1st Class, at 700	... 42,000
3 Assistant Commissioners of the 2nd Class, at 600	... 21,600
6 Assistant Commissioners of the 3rd Class, at 500	... 36,000
costing altogether Rupees 2,86,800 a year.	

That, instead of a Judicial Commissioner for the whole Province, as proposed in the Reports, whose ordinary business can well be undertaken by the Chief Commissioner, and who, as Judge of a Special Court sitting at the Head-Quarters of each Division, could not possibly dispose of the causes arising at each place in a manner that would satisfy the Suitors or be consistent with the prompt and regular administration of justice, there shall be established at Rangoon and Moulmein a Court to be presided over by a Barrister

* N. B.—This includes the Town Magistrates of Rangoon, Moulmein, and Akyab, who will be maintained on their present rate of pay, i. e. Rupees 800 per mensem.

or Advocate of not less than five years' standing, with full powers of Civil and Criminal Jurisdiction analogous to those now exercised by the Recorders of Prince of Wales' Island and Singapore, with the exception of the power to try cases in which European British Subjects are charged with capital offence. This part of the scheme must be delayed until a Law can be passed to constitute these Courts, and in the meanwhile the Additional Deputy Commissioner employed at Rangoon for the disposal of Civil Judicial business will be retained.

With the abovenamed exception, the new system will take effect from the date on which this Resolution is published at Rangoon.

Questions.	Answers by Government in India.	REMARKS.
96. An Officer is at home on two years' Furlough in 1856, and ordered out in consequence of the Mutiny in 1857, having ten months of his leave unexpired; can he, if he joins the Staff Corps, take this balance of Furlough without losing his appointment?	96. Yes, he would be allowed the balance of his Furlough, retaining his appointment.	96. Approved; but add the words—"to the Staff Corps."
97. An Officer proceeds on fifteen months' leave, retaining his appointment; he obtains twelve months additional leave and thereby forfeits his appointment. Is his absence of fifteen months to be reckoned as Staff service?	97. Yes.	97. See Despatch to India, No. 315 of the 9th August, published in General Order No. 824 of 1861.
99. Can an Officer having entered the Staff Corps retire from the Service and in the claim the extra 50% as pension offered in dated 2nd August 1861, published in Governor General's Order, dated 8th March last, No. 79, provided he applies to retire before the 1st October next?	99. Yes; but, as shown in the Despatch, No. 302, dated 2nd August 1861, published in General Order No. 781 of the 5th September 1861, it is not the intention of Her Majesty's Government that Officers should enter the Staff Corps for the purpose of immediately retiring.	99. See remark on question and answer No. 49, published in Government General Order No. 960 of 1861.
102. Whether a Lieutenant in a British Regiment of Foot, of eight years' service, who was appointed Officiating Assistant Commissioner, Tenasserim and Martaban, on the 20th October 1860, and under confirmed in the appointment of Second Class Extra Assistant Commissioner, Tenasserim Province, in June 1861, is eligible for the Staff Corps in India, and whether the service abovementioned will count as service on the Staff?	102. This Officer is eligible, at the discretion of the Government, to join the Staff Corps on probation not the privilege of counting previous Staff service towards promotion. Having been confirmed in permanent employ, his previous temporary employment will count as Staff service. See Questions and Answers 26 and 40. But as this Officer held only temporary employment on the 18th of February last, he cannot be admitted into the Staff Corps previously to the 22nd October 1861, after that date his claims will be considered.	102. An Officer entering the Staff Corps subsequent to the 22nd October 1861, has not the privilege of counting previous Staff service towards promotion.

Question.	Answers by Government in India.	REMARKS.
107. If an Artillery Officer elects to serve out of India, will his pay and allowances, while serving in India, undergo any alteration from the existing rates? Paragraph 30.	107. His pay and allowances will not be altered.	107. Approved; but add—"while serving in India."
108. It is presumed that Officers of Artillery now holding appointments either on the General Staff with Batteries of Native Artillery, in the Ordnance Department, or as Superintendents of Ordnance Manufacturing Establishments in India, are not required to vacate their appointments should they declare themselves willing to serve out of India, and that Officers now doing Regimental duty, and who are willing to serve out of India, will be eligible for appointment hereafter to Artillery and Ordnance Staff situations? Paragraphs 30 and 45.	108. Artillery Officers who volunteer will retain their appointments, and those who have no appointments will be eligible to Staff employment.	108. Substitute "Artillery Officers who volunteer will retain their appointments unless their services should be required elsewhere, and those who," &c., &c.
110. A Staff Officer having been directed temporarily to re-join his Regiment on field service or for garrison duty, when circumstances have required for a time the presence of additional Officers, will the period he may thus have been temporarily serving with his Regiment count as Staff service for promotion in the Staff Corps? Paragraph 84.	110. The period during which a Staff Officer may temporarily serve with his Regiment will not reckon as Staff service unless he has joined his Regiment into the field.	110. The privilege of counting as Staff service the period during which a Staff Officer may temporarily serve with his Regiment, if ordered to do so on public grounds, shall be granted to Officers joining their Regiments for garrison duty, as well as to those joining for field service.

LEGISLATIVE.

The following Report of a Select Committee was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862:—

We the undersigned the Members of the Select Committee of the Council of the Governor-General of India for the purpose of making Laws and Regulations, to whom the Bill "to revive and continue in force for a further period Act XXXIII of 1857 (to make further provision relating to Foreigners)," was referred, have the honor to report that we have considered the Bill, and that we have no amendment to propose.

(Signed) CECIL BRADON.
" W. RITCHIE.
" DEO NARAIN SING.

M. WYLIE.

Depty. Secy. to the Govt. of India,
Home Department.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862, and was referred to a Select Committee, with instructions to make a report thereon within one month:—

A Bill to amend Act XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies.)

WHEREAS since the passing of Act XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies) the Convention therein recited between Her Majesty the Queen of Great Britain and Ireland and His Majesty the Emperor of the French has been varied in the following particulars: that is to say, by substituting

for Article XXVI in the said Convention as so recited in the said Act, the following Article:

"ARTICLE XXVI.

The present Convention shall begin to take effect on the 1st of July 1862; its duration is fixed at three years and a half. It shall remain in full force if notice for its termination be not given in the course of the month of July of the third year, and then notice can be given only in the course of the month of July of each succeeding year.

In case of such notice being given it shall cease eighteen months afterwards.

Nevertheless the Governor-General of British India in Council shall, in conformity with the Act of the 19th of September 1856, relative to emigration to British Colonies, have the power to suspend at any time emigration to any one or more of the French Colonies, in the event of his having reason to believe that in any such Colony proper measures have not been taken for the protection of the Emigrants immediately upon their arrival or during their residence therein or for their safe return to India, or to provide a return passage to India for any such Emigrants at or about the time at which they are entitled to such return passage.

In case, however, the power thus reserved to the Governor-General of British India should at any time be exercised, the French Government shall have the right immediately to terminate the whole Convention if they should think proper to do so.

But in the event of the determination of the present Convention, from whatever cause, the stipulations relative to Indian subjects of Her Britannic Majesty introduced into the French Colonies shall be maintained in force in favor of the said Indian subjects until they shall either have been sent back to their own country, or have renounced their right to a return passage to India."

And also by the addition of the two following Articles which were not comprised in the Convention or recited in the said Act, that is to say—

“ARTICLE XXVII.

The present Convention shall be ratified, and the ratifications shall be exchanged at Paris in four weeks, or sooner if possible.

ADDITIONAL ARTICLE.

His Majesty the Emperor of the French having stated that, in consequence of the order which he gave long ago that no more African Emigrants should be introduced into the Island of Re-union, that Colony has, since last year, had to obtain laborers from India and China; and Her Britannic Majesty having, by Convention signed on the 25th of July 1860, between Her Majesty and His Majesty the Emperor of the French, authorized the Colony of Re-union to recruit six thousand laborers in Her Indian possessions, it is agreed that the Convention of this date shall take effect forthwith with regard to the said Colony of Re-union.

The present Additional Article shall have the same force and validity as if it were inserted word for word in the Convention signed this day. It shall be ratified, and the ratifications shall be exchanged at the same time as those of the Convention.”

And whereas the said Convention with such alterations and additions as aforesaid together with such additional Article has been duly signed, ratified, and confirmed :

It is declared and enacted as follows :—

All the provisions of Act XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies) shall be and remain in full force notwithstanding that the Convention therein recited had been so altered and added to before the same was signed or ratified as aforesaid : and all such provisions, in so far as the same relate to the Convention recited in the said Act, shall be deemed to apply and shall apply to the said Convention as signed and ratified as aforesaid together with the additional Article thereof.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to adapt the provisions of Act No XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies) to the Convention actually signed on the 1st July 1861 and ratified by Her Majesty and the Emperor of the French, for authorizing and regulating the emigration of Native Laborers to the French Colonies with an additional Article signed on the same date and similarly ratified.

The Convention thus signed varied in one important particular contained in the 26th Article from that originally negotiated and agreed upon, to which the Act XLVI of 1860, which was passed on the 6th October 1860, referred. The 26th Article as signed and ratified prescribes that the Convention shall begin to take effect on the 1st July 1862 (instead of September 1861), and it adds as a new provision that the Governor General of India in Council shall, in conformity with Act XIX of 1856 (to enable the Governor-General of India in Council to suspend the operation of certain Acts relating to the Emigration of Native Laborers) relative to emigration to British Colonies, have the power to suspend at any time emigration to any of the French Colonies, in the event of his having

reason to believe that in any such Colony proper means have not been taken for the protection of the emigrants immediately upon their arrival, or during their residence therein, or for their safe return to India, or to provide a return passage to India for any such emigrants at or about the time at which they are entitled to such passage. But that in case the powers thus reserved should at any time be exercised, the French Government should have the right immediately to terminate the whole Convention if they should think right so to do.

By the additional Article it was agreed that the Convention should take effect forthwith with regard to the Colony of Re-union.

These alterations in the Convention being material, it has become necessary to provide by legislation for the carrying it into effect in its altered shape. The present Bill therefore provides that all the provisions of Act XLVI of 1860 shall remain in full force, notwithstanding the change in the Convention, and shall be taken to apply to the Convention as altered together with the additional Article thereof.

M. WYLIE,

Depy Secy to the Govt. of India,

Home Department.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862, and was referred to a Select Committee with instructions to make their report thereon within a fortnight :—

A Bill to amend the Law relating to the use of a Government Seal.

WHEREAS it is expedient to adapt the Law relating to the use of a Government Seal to the present form of the Government in India, it is enacted as follows :

Whenever it is required by any Regulation of a local Government, or by any Act of the Governor-General of India in Council, that the seal of the East India Company shall be affixed on behalf of the Government to any instrument or document, it shall be lawful, if the seal is to be affixed on behalf of a local Government, to affix in lieu of the seal of the East India Company a seal bearing the designation of such local Government, or, if the seal is to be affixed on behalf of the Government of India, a seal bearing the inscription “Government of India;” and such instrument or document so sealed shall, to all intents and purposes, be as valid and effectual as if the seal so used had been that of the East India Company.

STATEMENT OF OBJECTS AND REASONS.

LEGISLATION on this subject was originally suggested in order to meet a difficulty respecting the seal to be used under Act XIX of 1838 (for the registration of Coasting Vessels in the Bombay Presidency). Section VIII of that Act requires that Certificates of Registry “shall be sealed with the seal of the East India Company,” and the Government of Bombay were advised by their Law Officers that no other seal could properly be used for such Certificates until some Act should be passed “prescribing the seal to be used in lieu of the seal of the East India Company.”

Before the present Bill was drafted, a further reference was made on the general question by the Government of India to the Advocate-General of Bengal. That Officer (Mr. Ritchie) expressed his concurrence in the opinion given in Bombay. He did not doubt that Certificates of Registry, for instance, would be valid, though sealed with the East India Company's seal subsequently to the transfer of the Government to the Crown. But it would, he observed, at all events be more seemly to substitute some other seal for the future. This could not, he added, be properly done without the authority of the Legislature; and he suggested that any enactment which might be drafted for the purpose should be so drawn as to have a general application, and should not be limited to the Government of Bombay alone.

The present Bill has, therefore, been made applicable to all cases in which the use of the seal of the East India Company is prescribed by any Indian Regulation or Act. But it does not affect the use of that seal or of the seal of the Secretary of State, or of the Members of his Council under any English Statute.

"Mr. E. H. Anson, who was restored to the full rights of a Subscriber to the Fund by the General Meeting of January 1861, reported, under date the 10th May following, the birth of a Daughter, which occurred on the 31st December 1860. As he urged that he would have made the communication earlier had he not deemed it useless to do so pending the decision of the question of his restoration to the rights of a Subscriber, and that he made the report within a month of the receipt of the Fund office communication conveying the decision of the General Meeting, the Managers informed Mr. Anson that they would recommend that, under the circumstances of the case, the fine under Article 6 of the Rules should not be levied from him. The case is accordingly submitted, and the Managers propose that only the regular subscriptions be levied retrospectively with interest.

* The figured Table of fines circulated with the last printed Proceedings should have the extreme figures on the right hand omitted, as difference of more than ten years is liable to fine, and not a difference of only ten years.

"The votes of the Subscribers have affirmed the adoption by the last General Meeting of the Clause providing for the payment of interest on the amount of fine incurred under the Rule imposing a fine on inequality of age at the time of Marriage.* The votes in favor of the Clause were 101, and those against it 13.

"The Managers have had under consideration the case of Mr. Spankie, who applied to be allowed to subscribe at the rates paid by unmarried Subscribers from the date of his Wife quitting his protection, on the ground that she had become ineligible to benefit from the Fund under the terms of Article 27 of the Rules. The Managers informed Mr. Spankie that, in the absence of any Rule specially providing for such a case, they were of opinion that he should in strictness be required to continue subscription as a married Subscriber until a divorce should be actually pronounced; but that, under the special circumstances of his case, it would be fair, should he accept the arrangement, to treat him as a Widower Subscriber from the 1st October 1860, his subscriptions being reduced accordingly, and the rates for his Children being doubled. To provide for this and such cases in future, the Managers submit the following Rule for adoption; it has been advertized in the usual manner:—

"That subscriptions from Subscribers divorced from their Wives shall be levied at the same rates as those levied from Widower Subscribers, and that the Managers shall have discretionary authority, on satisfactory proof of adultery being furnished, to allow such Members to subscribe at the reduced rates in anticipation of a legal judgment of divorce being obtained."

"As the Despatch of the Secretary of State, dated 7th June 1861, allows of retirements in anticipation of Annuities upon the allowance of £ 500 a year, the following amendment of the first Clause of Article 8 of the Rules is proposed so as to provide for subscriptions being paid from such allowance:—

Present Rule.

First.—Subscribers who may hereafter retire from the Service on annuities or in anticipation of annuities of the Civil Service Annuity Fund, wishing to secure to their Widows and Children the full benefits of the Fund, must, on retirement, make up the amount of their Subscriptions with Interest to Rupees 25,000, and must also continue their contributions at the same rates on their annuities when received as those levied from Subscribers in the Service on their allowances and under the same conditions in regard to the minimum payments and liability to increase or decrease of rates; an option being allowed to each Subscriber of paying up once for all, either at the time of resigning the Service, or at any subsequent period, the full value of his contributions according to the Tables of Mortality, which, on the advice of any Actuary, may be adopted by the Managers

Amended Rule.

First.—Subscribers who may hereafter retire from the Service on annuities or in anticipation of annuities of the Civil Service Annuity Fund, or upon the allowance of £500 under the terms of the Despatch from the Secretary of State dated 7th June 1861, wishing to secure to their Widows and Children the full benefits of the Fund, must, on retirement, make up the amount of their Subscriptions with Interest to Rupees 25,000, and must also continue their contributions at the same rates on the said allowance of £500, and on their annuities when received, as those levied from Subscribers in the Service on their allowances and under the same conditions in regard to the minimum payments and liability to increase or decrease of rates; an option being allowed to each Subscriber of paying up once for all, either at the time of resigning the Service, or at any subsequent period, the full value of his contributions according to the Tables of Mortality, which, on the advice of any Actuary, may be adopted by the Managers."

"It has been suggested by the Government of India that, upon the abolition of the office of Sub-Treasurer, the Secretary and Treasurer of the Bank of Bengal should be constituted the Treasurer of the Fund, and with reference to this the Officiating Advocate-General has given an opinion that the Bank will not be bound, under the terms of the agreement with Government, to conduct the business connected with "Service Funds" free of charge. The Managers have had under consideration the terms on which the Bank has offered to undertake the work, and recommend the Subscribers to

With a charge by debiting the usual fees leviable in similar cases by the Agency Department (less charges for making investments), which, in the case of the Civil Fund, would involve a probable yearly cost of Rupees 1,456, with out, however, in any respect, interfering with existing arrangement otherwise as regards home disbursements on account of the Funds.

agree to the transfer under the arrangement described in extract from the Bank's communication marginally given. The Managers have addressed the Government with the view of obtaining indemnity in respect of the annual charge resulting from this arrangement, and they trust that, looking to the connexion of the Fund with Government, the aid so long afforded of the services of the Sub-Treasurer without charge, and the fact that the circumstances which have necessitated the arrangement are entirely beyond their control, Government will accede to the request. Should the Subscribers agree to the proposed transfer the terms of Articles 11 and 21 of the Rules will require alteration, to which the assent of the Subscribers is accordingly requested.

"The Government of India, by a Resolution dated 25th November 1861, has exempted the "Service Funds" from the incidence of the Income Tax, on condition that the Managers furnish to the Accountant-General annual lists of the names and addresses of the Annuitants whose annuities are paid in India, which condition has been agreed to by the Managers. It is expected that the Fund will save thereby about Rupees 6,000 a year, which it was estimated would have been chargeable on its income.

"The Accounts for the past year 1860-61 are submitted.

LEGISLATIVE.

THE following Report of a Select Committee was presented to the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862:—

We the undersigned the Members of the Select Committee of the Council of the Governor-General of India for the purpose of making Laws and Regulations, to whom the Bill "to revive and continue in force for a further period Act XXXIII of 1857 (to make further provision relating to Foreigners)," was referred, have the honor to report that we have considered the Bill, and that we have no amendment to propose.

(Signed) CECIL BRADON.
" W. RITCHIE.
" DEO NARAIN SING.

M. WYLIE,
Deputy Secy. to the Govt. of India,
Home Department.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862, and was referred to a Select Committee, with instructions to make a report thereon within one month:—

A Bill to amend Act XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies.)

WHEREAS since the passing of Act XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies) the Convention therein recited between Her Majesty the Queen of Great Britain and Ireland and His Majesty the Emperor of the French has been varied in the following particulars: that is to say, by substituting

for Article XXVI in the said Convention as so recited in the said Act, the following Article:

"ARTICLE XXVI.

The present Convention shall begin to take effect on the 1st of July 1862; its duration is fixed at three years and a half. It shall remain in full force if notice for its termination be not given in the course of the month of July of the third year, and then notice can be given only in the course of the month of July of each succeeding year.

In case of such notice being given it shall cease eighteen months afterwards.

Nevertheless the Governor-General of British India in Council shall, in conformity with the Act of the 19th of September 1856, relative to emigration to British Colonies, have the power to suspend at any time emigration to any one or more of the French Colonies, in the event of his having reason to believe that in any such Colony proper measures have not been taken for the protection of the Emigrants immediately upon their arrival or during their residence therein or for their safe return to India, or to provide a return passage to India for any such Emigrants at or about the time at which they are entitled to such return passage.

In case, however, the power thus reserved to the Governor-General of British India should at any time be exercised, the French Government shall have the right immediately to terminate the whole Convention if they should think proper to do so.

But in the event of the determination of the present Convention, from whatever cause, the stipulations relative to Indian subjects of Her Britannic Majesty introduced into the French Colonies shall be maintained in force in favor of the said Indian subjects until they shall either have been sent back to their own country, or have renounced their right to a return passage to India."

And also by the addition of the two following Articles which were not comprised in the Convention or recited in the said Act, that is to say—

“ARTICLE XXVII.

The present Convention shall be ratified, and the ratifications shall be exchanged at Paris in four weeks, or sooner if possible.

ADDITIONAL ARTICLE.

His Majesty the Emperor of the French having stated that, in consequence of the order which he gave long ago that no more African Emigrants should be introduced into the Island of Re-union, that Colony has, since last year, had to obtain laborers from India and China; and Her Britannic Majesty having, by Convention signed on the 25th of July 1860, between Her Majesty and His Majesty the Emperor of the French, authorized the Colony of Re-union to recruit six thousand laborers in Her Indian possessions, it is agreed that the Convention of this date shall take effect forthwith with regard to the said Colony of Re-union.

The present Additional Article shall have the same force and validity as if it were inserted word for word in the Convention signed this day. It shall be ratified, and the ratifications shall be exchanged at the same time as those of the Convention.”

And whereas the said Convention with such alterations and additions as aforesaid together with such additional Article has been duly signed, ratified, and confirmed :

It is declared and enacted as follows :—

All the provisions of Act XLVI of 1860 (to

Act XLVI of 1860 to be applicable to the Convention as signed and ratified.

authorize and regulate the Emigration of Native Laborers to the French Colonies) shall be and remain in full force notwithstanding that the Convention therein recited had been so altered and added to before the same was signed or ratified as aforesaid : and all such provisions, in so far as the same relate to the Convention recited in the said Act, shall be deemed to apply and shall apply to the said Convention as signed and ratified as aforesaid together with the additional Article thereof.

STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to adapt the provisions of Act No XLVI of 1860 (to authorize and regulate the Emigration of Native Laborers to the French Colonies) to the Convention actually signed on the 1st July 1861 and ratified by Her Majesty and the Emperor of the French, for authorizing and regulating the emigration of Native Laborers to the French Colonies with an additional Article signed on the same date and similarly ratified.

The Convention thus signed varied in one important particular contained in the 26th Article from that originally negotiated and agreed upon, to which the Act XLVI of 1860, which was passed on the 6th October 1860, referred. The 26th Article as signed and ratified prescribes that the Convention shall begin to take effect on the 1st July 1862 (instead of September 1861), and it adds as a new provision that the Governor-General of India in Council shall, in conformity with Act XIX of 1856 (to enable the Governor-General of India in Council to suspend the operation of certain Acts relating to the Emigration of Native Laborers) relative to emigration to British Colonies, have the power to suspend at any time emigration to any of the French Colonies, in the event of his having

reason to believe that in any such Colony proper means have not been taken for the protection of the emigrants immediately upon their arrival, or during their residence therein, or for their safe return to India, or to provide a return passage to India for any such emigrants at or about the time at which they are entitled to such passage. But that in case the powers thus reserved should at any time be exercised, the French Government should have the right immediately to terminate the whole Convention if they should think right so to do.

By the additional Article it was agreed that the Convention should take effect forthwith with regard to the Colony of Re-union.

These alterations in the Convention being material, it has become necessary to provide by legislation for the carrying it into effect in its altered shape. The present Bill therefore provides that all the provisions of Act XLVI of 1860 shall remain in full force, notwithstanding the change in the Convention, and shall be taken to apply to the Convention as altered together with the additional Article thereof.

M. WYLIE,

Deputy Secy to the Govt of India,

Home Department.

THE following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 5th February 1862, and was referred to a Select Committee with instructions to make their report thereon within a fortnight :—

A Bill to amend the Law relating to the use of a Government Seal.

WHEREAS it is expedient to adapt the Law relating to the use of a Government Seal to the present form of the Government in India, it is enacted as follows :

Whenever it is required by any Regulation of a local Government, or by any Act of the Governor-General of India in Council, that the seal of the East India Company shall be affixed on behalf of the Government to any instrument or document, it shall be lawful, if the seal is to be affixed on behalf of a local Government, to affix in lieu of the seal of the East India Company a seal bearing the designation of such local Government, or, if the seal is to be affixed on behalf of the Government of India, a seal bearing the inscription “Government of India;” and such instrument or document so sealed shall, to all intents and purposes, be as valid and effectual as if the seal so used had been that of the East India Company.

STATEMENT OF OBJECTS AND REASONS.

LEGISLATION on this subject was originally suggested in order to meet a difficulty respecting the seal to be used under Act XIX of 1838 (for the registration of Coasting Vessels in the Bombay Presidency). Section VIII of that Act requires that Certificates of Registry “shall be sealed with the seal of the East India Company,” and the Government of Bombay were advised by their Law Officers that no other seal could properly be used for such Certificates until some Act should be passed “prescribing the seal to be used in lieu of the seal of the East India Company.”

Before the present Bill was drafted, a further reference was made on the general question by the Government of India to the Advocate-General of Bengal. That Officer (Mr. Ritchie) expressed his concurrence in the opinion given in Bombay. He did not doubt that Certificates of Registry, for instance, would be valid, though sealed with the East India Company's seal subsequently to the transfer of the Government to the Crown. But it would, he observed, at all events be more seemly to substitute some other seal for the future. This could not, he added, be properly done without the authority of the Legislature; and he suggested that any enactment which might be drafted for the purpose should be so drawn as to have a general application, and should not be limited to the Government of Bombay alone.

The present Bill has, therefore, been made applicable to all cases in which the use of the seal of the East India Company is prescribed by any Indian Regulation or Act. But it does not affect the use of that seal or of the seal of the Secretary of State, or of the Members of his Council under any English Statute.

MILITARY DEPARTMENT.

Fort William, the 8th February 1862.

No. 144 of 1862.—The following paragraphs of a Military Letter from the Right Hon'ble the Secretary of State for India, No. 497 of the 31st December 1861, are published for general information and guidance:—

2. In a General Order, Queen's British Troops, dated 3rd August 1859, I find that Staff Surgeon Woodward was granted leave of absence to Europe under the new Furlough Rules; and in a communication received from this Officer, since his arrival in this country, it is stated that he received from the Government of Bombay an advance of three months' pay and Indian allowances on quitting India.

3. Staff Surgeons are not entitled to the same advantages with respect to Furlough as Officers belonging to Regiments serving in India. When a Staff Surgeon leaves India he ceases to belong to the Indian Establishment, and his place is filled up, under such circumstances he can have no claim to Indian allowances for a date subsequent to that of his quitting India.

4. In fact Lord Stanley's Despatch to the Government of India, dated 9th February 1859, No. 41, transmitted a communication from the Director-General, Army Medical Department, in which he stated "that no Staff Medical Officer has any claim for Indian allowances after embarkation for this country; for, if this course be not pursued, it might happen that the Government of India would be involved in the payment of a larger Medical Staff than has been agreed on."

5. Previously to the introduction of the new Furlough Rules, it was optional with Officers to take, or refuse, an advance of six months' Furlough pay on quitting India. On the introduction of the new Rules it was stated* that advances of pay and allowances under them might be made in India from three months, and that Furlough pay might continue to be issued in advance for six months when required.

6. Notwithstanding these instructions, it appears that, in Bengal and Madras, advances of pay and allowances have been in some cases made for six months. This should be interdicted for the future. This Rule applies equally to Her Majesty's British Officers.
